Print as a booklet

To print booklets, your printer must support either automatic or manual duplex printing (printing on both sides of the paper). Manual duplex printing requires two separate printing passes: one to print the front side, and another to print the back side.

- Choose File > Print
- Select a printer from the menu at the top of the Print dialog box
- Under Page Sizing & Handling, choose Booklet
- In the Booklet Subset pop-up menu, select one of the following options:

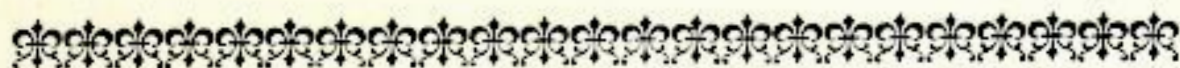

Both sides (duplex printers), or Front side only / Back side only (for non-duplex printers). If your printer can't automatically print both sides, you can first print the front sides of the paper. Then reload those pages and print the back sides.

Multipage PDF printed as a booklet: four pages per sheet, printed both sides, left-side binding.
